

# China Mining Industry Co., Ltd.

(A Member of HK GD Industry (Group) Ltd.)

## Overview

China Mining Industry Co., Ltd., a member of HK GD Industry (Group) Ltd., provides services to the mining industry at all stages of project development from exploration and resource evaluation through scoping, prefeasibility and feasibility studies, financing, permitting, construction, operation, closure and rehabilitation. Additionally, we also give advices to the exploration and mining companies, financial institutions, governments, law firms and individual investors from the technical and commercial aspects of mineral property development.

## Corporate Principles

We are a leading modern global mining group specializing in mining property project development, mining case financing, optimization of multiple mining properties and software based value-added service for mining activities.

We believe in mining business and strive to bring value to people. We showcase core competitiveness and combine structural changes of modern mining with stable mine resources. We upgrade our ability to financing for mining properties and resources home and abroad by means of the Internet. Our business profit will have a solid basis on our mining properties and we are striving for a better future for the mining industry.

## Core Services

### 1. Mining Project Investment & Development

We regard mining investment as our strategic action. The running of investment, survey, extraction, selection, refinery and sales are seamless, and mines include Fe, Mo, Au, Cu, Mn etc. Our group is highly cooperative with her 4 affiliate mining companies.

Our strategy ever since 2002 has been on the controlling of mine resources and on the mining business as foundation. We've been carrying out geologic surveys, acquiring licenses for mining activities and for mining properties, and as well as going for open tenders. We have successfully brought to our portfolio two mining bases, one in Guangdong and the other in Jiangxi, China, where production has been taken on good scale.

We value talent and strive to attract professionals from the mining circle. We aim at putting well-trained professionals within our company's human resource management direction and make it a harmonized engine for our progress.

Our strategy has been tested throughout the last 5 years, and we really come to our own in the area of geologic survey and other mining actives. And we are up and coming to become a most promising large mining group.

## **2. Co-investment & Cooperation for Mining Business**

The call for cooperation and co-investment has never been so attractive, as we regard it as one of our core business. And our strong financing ability in the foreign stock market as well as our extensive and stable relation with the international investment circle enable us to restructure our mining business model, and to form a solid platform for a matrix of capital projects for mining globally.

Cooperation covers various kinds of mines, and embraces survey institutions, national or private mining corporate and individuals alike. Within 1 to 2 years time, we aim at taking the advantage of our perfect sales network on the Internet to realize a win-win situation for all the interested parties.

## **3. Software based value-added service for Mining Business**

We have strong partnership in the Mining Technology industry circle to bring their specialties and professional experiences to our core competitiveness. Our partners have rich experience in developing and optimizing software which apply in systematic management of mining activities, which include survey, evaluation and extraction. The value added thereto is demonstration in the improved efficiency of mining activities and also in the final mining products. Our services in this respect are high in quality/price ratio and will bring to our partners desirable effects. In a word, we are striving to become your top global supplier in mining software backup.

## **Vision**

**To be the best regional mining company by finding, acquiring, developing and producing quality reserves in a safe, profitable and socially responsible manner**

## **Core Values**

For conducting our business around the world, we have always been guided by our commitment to responsible behavior. In practice, this translates into bringing long-term benefits to the communities where

we operate, and fostering a culture of excellence and collaboration among our employees. By upholding the Core Values in everything we do, we open up opportunities to earn the trust of our stakeholders and to create shared value

## Being a Team Player

We work safely at all times. We respect our colleagues and those we interact with outside our organization. We listen to others for understanding and we ask for help. We build trust and celebrate our successes. We help others improve their effectiveness. We promote confidence and trust in each other's capabilities.

## Continually Improve

We are always committed to improvement. We build on good ideas, learn from our mistakes and challenge the status quo. We think outside of the box and have a desire to succeed and add value to our work.

## Deliver Results

We have a clear vision of where we're going and the plan to get there. We focus our resources to achieve our objectives. We pay attention to detail and keep our commitments. We deliver results.
